

Take part in online studies abroad through the UNICAC Project

The [UNICAC project](#)

Funded by the European Commission through the KA2 - Capacity Building for Higher Education action of the Erasmus+ programme, UNICAC project aims to increase the potentials for international and cross-regional cooperation of Higher Education Institutions in Uzbekistan, Tajikistan and China through a set of capacity building activities for International Relations Offices, thus contributing to better international networking, enhancement and cooperation potentials in Teaching, Learning and Research.

Among the expected results is the implementation of mobility actions targeting students and professors. Due to the pandemic situation, the project will in the coming autumn semester 2021 provide students with possibilities for online mobility. Three institutions participating in the UNICAC project are offering the following online studies:

- Methodology of Translation, National University of Uzbekistan, 13.09. - 11.10.2021
- Wellness at Work, Laurea University of Applied Sciences, 15.09. - 03.11.2021
- Programming languages Python, Khorog State University, autumn semester

Information on the UNICAC mobilities is available on [the Canvas platform](#). If you are interested in taking part in one of the courses, please fill in your information on [the registration e-form](#).
